VA Certified Service Disabled Veteran Owned Small Business

Capabilities

Through James W. Allen MD, MPH, WHA provides medical expertise when questions of health arise from the workplace. WHA provides one-on-one consulting and interpretation services in the specialty of environmental medicine in the workplace. WHA can quickly respond to assure both compliance with regulations and a healthy workplace for employees.

Services

Services include surveillance for medical effects from work processes, analysis of requests for FMLA & ADA, medical interpretation of industrial hygiene data, assistance to safety managers confronting a workplace hazard, and team participation contributing toxicology, clinical, and statistical expertise.

Expertise

- Thirty years experience in the US Navy with assignments at the heavy industrial facilities (shipyards and aircraft repair) managing civilian federal workforces
- Work experience at Federal Occupational Health (FOH), Occupational Safety and Health Administration (OSHA) and National Institutes of Occupational Safety and Health (NIOSH)
- Ten years experience responding to inquiries from federal agencies on Family and Medical Leave Act (FMLA), Americans With Disabilities Act (ADA), Disability Retirements, and exposures in the workplace
- Author of Working Healthy series of books used in community colleges:
Working Healthy, a Manual on Health Techniques
Working Healthy, Solvents, protect your health when using solvents.
